Primary Case: 66A-CE-NEW

Case Title: (U/[redacted]) UNSUB; LENNON LACY-VICTIM; Bladenboro, North Carolina; Suspicious Death

Type: Investigative
Category: Assessment

Status: Pending
Assessment Type: Type 1 & 2

Initiated: (Upon Serialization)

Justification Review: (30 days)

Case Managers: [redacted] b6 b7C

Case Participants: No participants provided.

Case Access: Unrestricted.

Case Summary: (U//[redacted]) As background, on 8/29/2014 at approximately 7:30am, LENNON LACY was found dead, hanging from a swing set in a Bladenboro, North Carolina (NC) trailer park community. LACY, described as a 17 year old black male, was a student at West Bladen High School and a member of its varsity football team. Investigation into the death of LACY is being conducted by the North Carolina State Bureau of Investigation (NCSBI) with the assistance of the Bladenboro Police Department and the North Carolina Department of Health and Human Services, Office of the Chief Medical Examiner. The investigation is being conducted under the direction of Bladen County District Attorney Jon David.

During the course of the investigation into the death of LACY, representatives of the North Carolina National Association For the Advancement of Colored People (NCNAACP) expressed concerns with regards to the thoroughness and direction of the investigation. The NCNAACP felt that the state investigators had made a "quick call" to categorizes LACY's death as a suicide and have not looked at all of the facts. These concerns were expressed even though the investigation was ongoing and an investigative report had not yet been issued at that time.

The NCNAACP expressed its concerns through the media and formally to the United States Attorney's Office, Eastern District of North Carolina (EDNC). Specifically, the NCNAACP requested that the EDNC join the investigation into LACY's death. The EDNC subsequently requested that the FBI Charlotte Division assign an agent to look into this matter. On 12/05/2014, the Charlotte Division initiated an assessment into this matter at the request of the EDNC to determine if a federal violation exists. Assistant United States Attorney [redacted] is assigned this matter for the EDNC. Department of Justice (DOJ) Attorney Betsy Biffle, Civil Rights Division is also assigned b6 b7C

MEASUREMENTS TAKEN OF THE BLACK AND BLUE BELTS ON THURSDAY, NOVEMBER 20, 2014, AT THE BLADENBORO POLICE DEPARTMENT:

On Thursday, November 20, 2014, Special Agent (SA) [redacted] b6 b7C with the North Carolina State Bureau of Investigation (NCSBI) made contact with Chief C. Hunt at the Bladenboro Police Department. SA [redacted] requested that Chief Hunt remove the black and blue belts from evidence that were collected during the investigation. SA [redacted] wanted Chief Hunt to remove the belts so SA [redacted] could take measurements of the total length of the belts. Chief Hunt stretched the belts out on a table located within the police department. SA [redacted] utilized his NCSBI-issued tape measure to obtain a measurement of the belts. After placing the tape measure next to the belts, SA [redacted] utilized his NCSBI-issued cellular phone and took photographs of the measurements. SA [redacted] transferred the photographs from his NCSBI-issued cellular phone over to his NCSBI-issued laptop. A CD-R copy containing the photographs of those measurements has been attached to this report as Attachment #1077-41.

Prior to departing the Bladenboro Police Department, Chief Hunt Showed SA [redacted] two printouts of what appeared b6 b7C to be Lennon Lacy wearing a pair of white shoes. The two printouts appeared to be the same document, but one of them was in color with additional identifying markers on the document. Chief Hunt said Detective [redacted] was previously supposed to fax the documents over to SA [redacted] SA [redacted] observed a note affixed to the two printouts advising the Chief to fax the documents to SA [redacted] SA [redacted] asked Chief Hunt where Detective [redacted] obtained the two printouts from, and Chief Hunt said Detective [redacted] obtained them from a source that

Detective [redacted] did not want to identify. SA [redacted] requested that Chief Hunt make a note of same and provide it along with the two printouts. A copy of the two printouts and the two notes has been attached to this report as Attachment #1077-42.

REVIEW OF THE SPINNER COURT APARTMENTS SURVEILLANCE FOOTAGE:

Special Agent (SA) [redacted] with the North Carolina State Bureau of Investigation (NCSBI) conducted a review of the Spinner Court Apartments surveillance footage during the investigation. SA [redacted] previously requested that Chief Hunt with the Bladenboro Police Department make contact with management at the Spinner Court Apartments and asked for a copy of the surveillance footage. SA [redacted] received the surveillance footage from Chief C. Hunt on September 19, 2014. Chief Hunt provided the surveillance footage to SA [redacted] on a 16GB thumb drive. Chief Hunt also provided SA [redacted] with a note to go along with the thumb drive. The note had a contact name of [redacted] on it. Chief Hunt told SA [redacted] to contact [redacted] if he had any questions regarding the surveillance video or how to properly view it. SA [redacted] later copied the surveillance footage to his NCSBI-issued laptop where he was able to view same. SA [redacted] transferred the thumb drive back to Chief Hunt on October 2, 2014. SA [redacted] told Chief Hunt to maintain the thumb drive as an item of evidence.

SA [redacted] was able to view the surveillance footage by opening the playback.exe document. The surveillance footage was that from two different cameras. The cameras were labeled Camera #1 (Back Side) and Camera #2 (Community Building). When reviewing Camera #1 (Back Side), SA [redacted] noticed that the camera appeared to rotate to two different views. When reviewing Camera #2 (Community Building), SA [redacted] noticed that the camera appeared to rotate to four different views. One of

the views appeared to point [redacted] b6 b7C

It should be noted that the focus on Camera #2 is blurry at times when playing back and thus made it difficult to view.

SA [redacted] was not able to locate any audio associated with Camera #1 or Camera #2 when reviewing.

SA [redacted] attempted to call [redacted] on November 23, 2014, and ask him specific questions regarding the footage. Some of the questions were to confirm whether or not the video footage contained audio and what kind of timer the cameras were set on when they rotate. [redacted] did not answer the phone, and SA [redacted] left him a voicemail.

SA [redacted] did not view every minute of the surveillance footage and focused his attention more on the time periods previously discussed with witnesses in the investigation. b6 b7C

SA [redacted] noted the following observations during the review of the recording:

1. On August 28, 2014, at 11:41 p.m., two people are seen on Camera #2. The two unknown people are standing next to what appears to be Short Street. The two unknown people remain on Camera #2 in that area until they are no longer seen at 11:59 p.m. when the camera view shifts back to that angle. SA [redacted] was not able to locate them on any of the other camera angles from Camera #2. It is dark outside and SA [redacted] was not able to identify the race or sex of the two individuals. b6 b7C

2. On August 28, 2014, at 11:55 p.m. an unknown person walks from the corner of one of the apartments on Camera #2 and then walks back out of view. SA [redacted] was not able to identify the sex or race of the individual seen on the camera. It appears to possibly be the apartment that [redacted] lived in. b6 b7C

3. On August 29, 2014, at 12 midnight, an unknown person is seen walking out from the corner of the same apartment (as mentioned above). The camera changes view at that point, and SA [redacted] is not able to confirm where that individual walked to. That person is not seen when the camera shifts back around to that view. Again b6 b7C

SA [redacted] is not able to identify the sex or race of the individual. b6 b7C

4. On August 29, 2014, at 12:37 a.m., on Camera #2 something appears to be moving toward Spinner's Circle and the Chestnut Street entrance. When the camera shifts back around to the same view, something is seen moving behind a set of apartments toward a street light. This is very difficult to see as the street light is very bright in the video. The camera shifts back around at 12:38 a.m. and what appears to be an unknown person is seen walking next to what appears to possibly be [redacted] This view is also difficult to see. b6 b7C

5. On August 29, 2014, at 1:02 a.m., on Camera #2 someone is seen walking from the front area of [redacted] toward the direction of the Bladen Rental Properties. SA [redacted] was not able to identify the sex or race of the individual, but it does appear to only be one person walking. b6 b7C

Regarding the above paragraph, SA [redacted] looked back over his statements with [redacted] and [redacted] told SA [redacted] b6 b7C b7D

After looking over both of those statements, SA [redacted] called [redacted] on November 23, 2014, in order to speak with [redacted] SA [redacted] asked [redacted] on the telephone how [redacted] would walk to [redacted] SA [redacted] asked [redacted] that question because he noticed when reviewing the surveillance video that the camera points to [redacted] in which you can see a privacy fence on [redacted].
SA [redacted] was not able to see what was on the other side of the fence as the camera does not show that far over.
SA [redacted] knew from being in the area during the investigation that the back side of Lacy's apartment was in close proximity to the far end of that fence not shown on the camera. In [redacted] statement on September 2, 2014, [redacted] b6 b7C

b6 b7C

b6 b7C b7D

[redacted] said Lacy would walk [redacted] by walking by the side of the fence [redacted] next to the soybean field. SA [redacted] asked to speak with [redacted] said he was not home. b6 b7C

[redacted] called SA [redacted] at approximately 2:21 p.m. SA [redacted] asked [redacted] which way [redacted] would walk when [redacted] said Lacy would walk in [redacted] the soybean field. [redacted] said there was an opening close to the fence. [redacted] said the fence was "L" shaped where it was at. [redacted] said if you were facing the front of the house, Lacy would walk from the left side. [redacted] said the only time they would cross the fence where the ditch was behind [redacted] was if they were going to the park to play basketball. b6 b7C

SA [redacted] called [redacted] back at approximately 6:01 p.m. because SA [redacted] noticed that it appeared there was a light emitting from the [redacted] When reviewing the footage, the light appears to be emitting at 1 a.m., but when the camera shifts back around at 1:01 a.m. and two seconds the light is off. It is at 1:01 a.m. and 59 seconds that the camera shifts back around and you see the unknown person [redacted] asked [redacted] how sure [redacted] was that Lacy [redacted] said [redacted] was not real sure. [redacted] said he knew it was not late. SA [redacted] asked [redacted] if Lacy would have been at [redacted] at 1 a.m. [redacted] said Lacy would not have been at [redacted] and Lacy would never come [redacted] on a school night. [redacted] said he knew [redacted] b6 b7C

On Monday, November 24, 2014, SA [redacted] with the assistance of SA [redacted] printed off three different google earth images showing the area of the Spinner Court Apartments, Lennon Lacy's residence, and [redacted] SA [redacted] noted the location of Camera #1 and Camera #2 on one of the images and also noted the location of Lacy's residence and [redacted] on the other two images. b6 b7C

A copy of those google earth images have been attached to this report as Attachment #1077-43.

Expert Pathologist Challenges Lennon Lacy Hanging Death Crime Scene Investigation in Report to NC NAACP

DURHAM, NC: Dr. Christena L. Roberts, an expert pathologist retained by the North Carolina NAACP to review the procedures followed by local and state authorities in handling the purported "suicide" of the West Bladenboro High School linebacker, Lennon Lacy, who was found dead at 7:25 a.m. on August 29, hanging from a child's swing set, released her report yesterday. The report supports the official autopsy's finding that Lennon's head was not marked by any pronounced visible wounds when it was photographed at the official autopsy, but is critical of many other actions of law enforcement.

Dr. Roberts, after meeting with Dr. Deborah Radisch, the State's Chief Medical Examiner who conducted the original autopsy, raised several challenges to the way the body was handled when it was first discovered hanging from a child's swingset, the way the local Medical Examiner was treated by law enforcement officers at the scene, and the way evidence was collected. Dr. Roberts reported that Dr. Radisch qualified her original findings in several ways:

1. Dr. Radisch said her determination of Manner of Death (MOD) was a "suicide" was based on information provided to her by law enforcement and the local medical examiner when she received Lennon's body. She would have likely called the MOD "pending" until she received the toxicology reports (Lennon's body was drug and alcohol-free) and further reports from the law enforcement investigation. She noted the Local Medical Examiner or Coroner had categorized the MOD as "suicide."

2. Dr. Radisch said she was not provided with photographs or dimensions of the swing set; she was unable to evaluate whether it was feasible for Lennon to hang himself

from the swing set structure.

3. Dr. Radish said if investigative information was provided by an independent agency (police, SBI or other investigative agency, not the family) that the manner of Lennon's death could be something other than a suicide, she would reconsider her designation and would likely change it to "undetermined" while awaiting additional investigation.

4. Dr. Roberts said "there are variations of the choke hold. The variation called the lateral vascular neck restraint (LVNR) is where the anterior neck is held in the antecubital fossa (front of the elbow) and the forearm is pulled towards the arm, compressing the vessels in both sides of the neck." Dr. Roberts reported that "during our conversation with Dr. Radisch she agreed that one would be unable to tell at autopsy if death occurred via this type of choke hold and then the body was placed in a suspension noose."

5. The Bladen County Coroner or local Medical Examiner reported that when he placed Lennon's body in the body bag he was wearing white sneakers without laces.These shoes were not on the body when he arrived at the Medical Examiner's office. Review of the photographs show that they are size 10.5. Lennon wore a size 12 and the shoes he had on that night were gray. During our meeting with Dr. Radish she stated she had asked SBI about the shoes but they simply offered it had been explained and did not elaborate further. She also noted that it was not the usual practice for police to remove clothing from the body before transport.

Dr. Roberts' report is below:

11/20/2014 Death Investigation of Lennon Lee Lacy

Christena L. Roberts, MD CJ Consulting of America, LLC
7332 North Nature Trail Hernando, FL 34442 352-562-1397

This memorandum is to summarize findings from my review of the autopsy report and death investigation in the death of Lennon Lacy, including the review of the medical examiner file and discussion with Dr. Radish.

The background information provided was that 17 year old Lennon Lacy was found dead early in the morning in a mobile home park. He reportedly had been found hanging by his neck from a noose that was secured to a wooden swing set. He was completely suspended with his feet several inches off the ground. Investigative information provided was that he was found by one individual and a different female called 911 and stated that she was going to cut him down. When EMS arrived at 7:30 am they pronounced his death.

An autopsy was performed by Dr. Deborah Radisch at the Office of the Chief Medical Examiner in Raleigh, NC. The details of the autopsy are discussed below. Her autopsy findings along with information provide by police resulted in her issuing an autopsy report with the Cause of Death listed as Asphyxia due to Hanging. The Manner of Death is listed as Suicide on the death certificate and on the Medical Examiner Investigation Report. The family and community expressed concerns that they did not feel Lennon had taken his own

life and had many questions about injuries seen on the body at the funeral home as well as questions about the police investigation.

Review of the Background and Investigative Information:
When conducting a death investigation to determine COD and MOD it is necessary to gather all of the information about the person's medical, social and psychiatric history and the events of the days leading up to their death.

The information provided to the Medical Examiner Office was that Lennon was depressed over the recent death of his uncle. The family reported that Lennon's great uncle had died. He was asking questions about death that he had not discussed before but there were no expressions of wishing to bring about his own death. He did not express a desire to hurt himself or to a wish to longer be around. He was not making preparations to put his life in order. For instance, some individuals may give away prized possessions or let someone know they care about that they won't be around. He did not write a suicide note or send any text messages that would be thought to represent a suicide note or saying goodbye. The medical records are not available at this time for review but there is no report that Lennon had attempted suicide in the past or expressed suicide ideations. There is no long term history of depression. There is no history of alcohol or drug abuse.

In contrast to being depressed, Lennon was looking forward to playing the next day in a football game as a lineman. In a conversation that he had the night before his death he explained that his grades from the previous year hadn't been good enough to allow him to play varsity football. He had been working very hard at school to improve his grades and was being rewarded with the opportunity to play in the game the following day. This conversation was with a man who worked for the funeral home at a dinner gathering following some portion of his uncle's funeral events.

The events of the rest of the evening are partially known. Lennon was at home with his mother and father when he told her he was going for a walk at approximately 10:30 pm, which was a normal habit for him. When she awoke the next morning she had no reason to check on him as he regularly got himself ready for school. She went to work and did not know he was missing until later notified of his death.

Information provided was that sometime during the evening Lennon had an argument with his girlfriend. After that time he went to a mobile home located in the park where he was found. Family has expressed concern about one male that resided at the mobile home. He had a history of violence so severe that he could not live with either of his parents and was staying with the people who resided there...

When evaluating if a death represents a suicide that ability to physically carry out the act based on the limitations of the structure is evaluated. The wooden swing set that Lennon was reportedly hanging from appears solidly made in the photographs provided. The photographs provided show that the noose was constructed from a double holed black canvas belt that was tied end to end with a blue canvas belt that has a loop created through the D-type ring.

One end of the swing set has a climbing platform attached. The noose was reportedly tied to the supporting cross beam (appears to be a 2 x 6") and then fed through a metal grommet that was screwed into the wood. This grommet was 22.5" away from the platform. Lennon

was 69" tall. The height of the cross beam to the ground was 90". In a photo provided his brother who is 6'4" could not reach up and touch the beam. There were no swings on this swing set to act as a step to reach the beam. There was no item present at the scene that Lennon could have stood on, applied the noose and then kicked away. The only other way to reach the beam and grommet therefore had to be from the climbing platform. No measurements are available at this time for the noose (described below) but it does not appear long enough to have been tied around the beam, fed through the grommet and still allow a large enough loop for him to be able to place over his head. The side structure of the platform is a rather small square that is further obstructed by the v-shaped vertical supports of the swing.

There are a number of concerning factors about the apparent noose. The picture provided show that the black belt was not consistent with the one worn by Lennon. The blue belt is reported to be consistent with a belt worn by a male who resided in the mobile home where Lennon was last known alive.

What is most concerning about the apparent noose is that the person who called 911 said she was going to the cut the person she found down. Review of the photographs show that the 2 belts are tied together with a single cut to each at the tie point. The other free ends of the belts are completely intact and have no secondary cuts. Only a very short piece of each belt extends past the tied area and could not have been tied around the cross beam. Note that when meeting with Dr. Radisch she stated that when she examined the belt she thought some portion must be missing because there was no secondary cut in either belt.

Lennon weighed 207 pounds and was reportedly completely suspended. It is very unlikely that a female could lift his body weight, support it for a prolonged period and untie the belt. Also, as she did not have anything to stand on she would have to be well over 6'6" to accomplish this from the ground. Note that funeral home personnel stated that it took 3 men to move Lennon while making preparations.

There is conflicting information about what occurred at the scene between the representative from the Medical Examiner office and the police. Mr. Kinlaw was the local medical examiner who responded to the scene. He reports that officers didn't want an autopsy performed and he had to have the District Attorney office order one. The case encounter form notes that the SBI agent was requesting an autopsy. Dr. Radisch stated that under these circumstances an autopsy absolutely would have been performed. She asked the DA to order one because of conflict between the agencies.

Mr. Kinlaw also reports that when he placed Lennon's body in the body bag he was wearing white sneakers without laces. These shoes were not on the body when he arrived at the Medical Examiner's office. Review of the photographs show that they are size 10.5. Lennon wore a size 12 and the shoes he had on that night were gray. During our meeting with Dr. Radish she stated she had asked SBI about the shoes but they simply offered it had been explained and did not elaborate further. She also noted that it was not the usual practice for police to remove clothing from the body before transport.

There is conflicting information concerning why photographs were not taken at the scene. Mr. Kinlaw reported that SBI would not let him take photographs at the scene and threatened to take his camera if he did. The case encounter form notes that the SBI agent felt that this case represented a suicide but wanted an autopsy because the young man was

dark skinned and bruises may be missed. He noted that the Crime Scene Techs (CST) agreed. The next sentence notes however that no photographs were taken because the CST was at "another homicide".

Review of the Autopsy Findings:
The autopsy revealed a dry abraded ligature furrow completely encircling the neck. The width and pattern of the abrasion is consistent with the canvas type belts provided in evidence. The suspension point was on the right side of the neck in an area where a buckle mark consistent with the D-type rings is seen. The ligature furrow is above the superior laryngeal prominence (under the jaw) which is a normal location for a ligature furrow in a suspension hanging.

Funeral home personnel expressed concern that the ligature furrow was much lower than reported in the autopsy report and was down by the collar bone (clavicles). Review of the autopsy photographs confirms the findings at autopsy.

In a case of hanging the internal examination of the neck should be negative. Specifically, there will be no hemorrhage in the anterior strap muscles of the neck and no fractures of the thyroid cartilage or hyoid bone. At autopsy there was no hemorrhage in the anterior strap muscles of the neck and no fractures of the thyroid cartilage or hyoid bone. There was a small amount of blood over the right side of the hyoid bone. Review of the photographs confirms this is consistent with the location of the belt buckle abrasion and the suspension point.

It should be noted that there are variations of the choke hold. The variation called the lateral vascular neck restraint (LVNR) is where the anterior neck is held in the antecubital fossa (front of the elbow) and the forearm is pulled towards the arm, compressing the vessels in both sides of the neck. This is basically a pincher movement with both sides of the neck between the arm and forearm. This hold can be applied without injury to the underlying internal neck structures or if there is a struggle there can be blood in the muscles and fractures of the superior cornu of the thyroid cartilage. During our conversation with Dr. Radisch she agreed that one would be unable to tell at autopsy if death occurred via this type of choke hold and then the body was placed in a suspension noose.

The autopsy report notes that there was no evidence of blunt force trauma. There were no defensive wounds.

Family and funeral home personnel also expressed concerns about injuries that they saw on the body. They noted a "knot" on the right side of his head above the eye which appeared to be approximately 1.0 to 1.5 cm wide in photographs taken at the funeral home.

Review of the identification photo taken at autopsy clearly shows that the bump on the right side of the forehead was not present at the morgue. This knot must have occurred after autopsy. It could represent muscle tissue that was cut in order to open the skull and then was bunched up when the scalp incision was sewn at the funeral home. It could also represent a misalignment of the 2 portions of skull. It may also represent some material (like clay) that was used to keep the 2 portions of skull from sliding.

Concerns were expressed about numerous abrasions of his face and arms. The autopsy report noted that these were abrasions from ant predation. Review of the autopsy

photographs confirm these abrasions are consistent with those seen when large numbers of ants predate the body. Dr. Radisch confirmed the ants were in large numbers and still actively biting the body when he arrived at the morgue.

Dr. Radisch also noted that she was not provided with photographs or dimensions of the swing set. Without this information she would be unable to evaluate the ability to create this scenario as was discussed above.

Dr. Radisch noted that her determination of MOD in this case as suicide was based on the information she was provided by law enforcement and the local medical examiner at the time of autopsy and when preparing her report. She would have likely called the MOD pending while awaiting toxicology and investigation but the LME had already signed the MOD as suicide.

She also noted that if investigative information was provided by an independent agency (police, SBI or another investigative agency, not the family) that Lennon's death represented something other than a suicide, that she would reconsider the MOD. She would likely change the manner of death to undetermined while awaiting additional investigation.

District Attorney David:

Thanks for meeting with the Lennon Lacy's family. As stated we will continue to withhold opinion until the investigation is complete. These are the follow up questions from our meetings.

1. What type of rope or belt was used in the incident? Could you tell where the belt came from? How long was this rope or belt that was used?

2. What was the height, weight and age the person [redacted] who found Lacy's body and cut him down? What do we know about her?

3. Have any additional interviews been sought to corroborate or confirm her version of the events she reported?

4. Has [redacted] been questioned by SBI or investigators?

5. The family identified [redacted] as an additional person of interest. They recalled a past conflict and had concerns regarding his Facebook page. Please investigate.

6. You indicated you had not questioned [redacted] nor had you looked at his past criminal history. Please do so.

b6
b7C

The family concerns regarding how the manner of death is determined remains an issue. They are not asking from a legal stand point but from a mechanical perspective. Thanks again for this opportunity to discuss this matter with you.

I should be meeting with the family later today and will definitely seek to get this information for you.
I am curious to know [redacted] shoe size, and whether the belts were familiar to him or any of the persons you've spoken with.
Dr Radish CME indicated that the shoes were not a part of the items forwarded to Chapel Hill. Is their any particular reason why they were not included?
Was any valuable data retrieved from Lennons phone?
Has any follow up been done with the person who cut Lennon down? If so where is the additional piece of the belt that was cut? Did his body fall to the grown or did she cut and hold him up, upon cutting him down ? Is it possible for us to review the photos taken at the scene?
We look forward to speaking with you soon. Thanks

I have attached a photograph of a picture that was recovered from the phone belonging to Lennon Lacy. He is wearing a black belt that looks similar to the one recovered at the crime scene. I have also attached a few photographs of the belts for your to compare. It appears to me the belt Lennon is wearing has one "eye hole" on the front while the belt recovered from the crime scene has two "eye holes" next to each other. I can only see the front of the belt that Lennon is wearing in the picture so that is not to say that the rest of the belt may not have two of the "eye holes" throughout the rest of the belt. At the very least I would say the belt is similar to the one we recovered at the crime scene. You may have to use the "Windows Photo Viewer" on your computer to open that picture if you have it.

I have also attached the picture of Lennon wearing the blue belt from the Facebook page that we previously discussed. I have found that same photograph on the data recovered from Lennon's phone. The blue belt that Lennon is wearing in the picture compared to the one that we recovered from the crime scene appears very consistent with each other to me.

Please let me know if you have any questions regarding same.

Please keep in the mind that the photograph of the swing set does not include a swing that was hanging from it on the day of the crime scene. [redacted] told me they have since removed that swing because one side of it was not connected one day when they were out there and decided to go ahead and take it down. Not sure if you remember the crime scene photographs but the swing was hanging on the left side if you are facing the front of the swing set. Let me know if you have any questions regarding that.

Thanks

SURVEILLANCE FOOTAGE OF THE SPINNER COURT APARTMENTS PROVIDED TO SA [redacted] ON SEPTEMBER 19, 2014, BY BLADENBORO POLICE CHIEF C. HUNT:

On Friday, September 19, 2014, Special Agent (SA) [redacted] b6 b7C with the North Carolina State Bureau of Investigation (NCSBI) met with Bladenboro Police Chief C. Hunt in the parking lot of the Sharonview Federal Credit Union at approximately 3 p.m. SA [redacted] met with Chief Hunt to obtain a 16GB thumb drive that contained surveillance footage of the Spinner Court Apartments. Chief Hunt said the thumb drive also contained crime scene photographs taken by Sergeant (Sgt.) [redacted]

AGENT'S NOTE: SA [redacted] previously requested that b6 b7C Chief Hunt make contact with management at the Spinner Court Apartments and inquire about any surveillance footage they may have. SA [redacted] and Assistant Special Agent in Charge (ASAC) [redacted] had seen what appeared to be two different cameras located within the Spinner Court Apartments during the investigation. Chief Hunt followed up on same and informed SA [redacted] that the apartments did have surveillance footage and he would obtain a copy of same for SA [redacted]

AGENT'S NOTE: The address for the Sharonview Federal Credit Union was noted as 16616 Highway 87, Tarheel, North Carolina.

On Thursday, October 2, 2014, SA [redacted] saved the data b6 b7C from the 16GB thumb drive provided by Chief Hunt to his NCSBI issued laptop. SA [redacted] then saved the data from his NCSBI laptop to two 16GB "Verbatim" SD memory cards. One of the SD memory cards was designated to be

sent to the NCSBI Case Records Section and the other was designated as a District Attorney copy of the data.

SA [redacted] made contact with Chief Hunt at the Bladen County District Attorney's Office on Thursday, October 2, 2014, prior to a scheduled meeting with the victim's family and their attorney [redacted] SA [redacted] transferred the 16GB thumb drive back to Chief Hunt and informed Chief Hunt to maintain the thumb drive in evidence. SA [redacted] and Chief Hunt identified the 16GB thumb drive as evidence item #6 in the investigation. b6 b7C

A 16GB SD "Verbatim" memory card has been submitted to the Case Records Section with the NCSBI and attached to this report; see Attachment #1077-4.

ADDITIONAL FACEBOOK INFORMATION FOR LENNON LEE LACY:

On October 17, 2014, Chief C. Hunt with the Bladenboro Police Department informed Special Agent (SA) [redacted] b6 b7C with the North Carolina State Bureau of Investigation (NCSBI) that [redacted] b6 b7C b7D

Chief Hunt said [redacted]

SA [redacted] previously served a search warrant on Facebook for the account belonging to Lacy. SA [redacted] b6 b7C received those results on October 2, 2014. After receiving that information from Chief Hunt, SA [redacted] went back and reviewed over the Facebook data that he had received via the search warrant. SA [redacted] was not able to find a picture of Lacy wearing a blue belt that was consistent with the one recovered from the neck of Lacy on August 29, 2014.

SA [redacted] noticed that the Facebook results via the search warrant noted that the account was no longer active as of September 26, 2014. The results noted the reason as "memorialized."

SA [redacted] then accessed Facebook and was able to find an account under the name of Lennon Lacy. It was apparent to SA [redacted] that the data on the current Facebook account he located contained some different information than the Facebook results he previously received via the search warrant. SA [redacted] b6 b7C b7D

SA [redacted] noticed that he could not view

all of the contents of Lacy's Facebook page as some of the photographs were not accessible for SA [redacted] to view. b6 b7C

Agent's Note: It is the understanding of SA [redacted] in his experience and general knowledge of Facebook that users that are not "Friends" or "Mutual Friends" with users on Facebook that person may not be able to view specific information they want to look at on the requested page.

SA [redacted] made contact with [redacted] on Thursday, October 23, 2014, and asked [redacted] showed SA [redacted] the photograph of Lacy wearing a blue belt that was immediately apparent to SA [redacted] to be consistent with the blue belt recovered from the neck of Lacy. b6 b7C b7D

On Wednesday, October 29, 2014, SA [redacted] called [redacted] SA [redacted] account from his NCSBI-issued laptop at the NCSBI office in Fayetteville, North Carolina. SA [redacted] pulled up the Lacy Facebook page and proceeded to printout out the data from the page that was accessible to SA [redacted] SA [redacted] printed out the "Timeline" data of the Facebook page dating back to October 2, 2013. SA [redacted] also printed out the photographs contained on the page. b6 b7C b7D

A copy of the Facebook data printed out by SA [redacted] has been attached to this report as Attachment #1077-37. b6 b7C

CONTACT AT [redacted] RESIDENCE ON THURSDAY, OCTOBER 30, 2014, WITH ATTORNEY [redacted] b6 b7C

On Thursday, October 30, 2014, Special Agent (SA) [redacted] b6 b7C and SA [redacted] with the North Carolina State Bureau of Investigation (NCSBI) made contact with [redacted] SA [redacted] and SA [redacted] went to the residence because SA [redacted] had previously made contact with Attorney [redacted] on October 29, 2014, about meeting with [redacted] to show them a photograph. The meeting was scheduled for 5 p.m., but [redacted] emailed SA [redacted] informing him that he would schedule the meeting as close to 4:30 p.m. as possible. SA [redacted] and SA [redacted] entered [redacted] shortly after 5 p.m. and [redacted] had not yet arrived. SA [redacted] requested to go ahead and show [redacted] the photograph, but [redacted] refused to meet with [redacted] and SA [redacted] without [redacted] attorney present. [redacted] would just reschedule.

Agent's Note: Prior to arriving at the [redacted] b6 b7C SA [redacted] and SA [redacted] interviewed a [redacted] DOB: [redacted] There was an unknown white female who was present in front of the area of [redacted] speaking with what appeared to be [redacted] When SA [redacted] approached [redacted] and asked to speak with him, the unknown white female identified herself as an attorney out of Raleigh. SA [redacted] asked [redacted] if he could speak with him in his vehicle. When [redacted] got in the vehicle, SA [redacted]

asked him who the lady was and [redacted] said she identified herself as a reporter. b6 b7C

The unknown white female who was previously outside in front of [redacted] spoke up and said it was okay to meet because she was there. When SA [redacted] asked the unknown female who she was, she identified herself as a lawyer with the NAACP out of Raleigh. SA [redacted] informed the identified NAACP attorney that she was not participating in the meeting. The identified NAACP attorney requested the NCSBI case number, and SA [redacted] informed her that he was not going to provide it to her. [redacted] was also present in the room. It was shortly around that time that Attorney [redacted] arrived.

SA [redacted] SA [redacted] Attorney [redacted] and the identified NAACP attorney entered [redacted] SA [redacted] informed Attorney [redacted] that he would meet with [redacted] but the NAACP would not be permitted. SA [redacted] advised Attorney [redacted] that he was not made aware that the NAACP would be attending the meeting and found it to be unprofessional for them to be there with SA [redacted] not be informed prior. [redacted] called the NAACP attorney out of the [redacted] SA [redacted] then informed Attorney [redacted] and [redacted] that he was not even required to have the attorney present as [redacted] was not a defendant in the case, but wanted to remain transparent, and Attorney [redacted] had previously attended meetings with [redacted] Attorney [redacted] expressed that he would address the matter. b6 b7C

SA [redacted] showed Attorney [redacted] two photographs. One of the photographs was that of Lennon Lacy wearing a blue belt and the other photograph was that of Lennon Lacy wearing a black belt. Attorney [redacted] asked if the belts were consistent with the ones found at the scene, and SA [redacted] said yes. SA [redacted] asked [redacted] if the person in the pictures were [redacted] said yes. SA [redacted] asked [redacted] if she had seen the blue belt or black belt. [redacted] said no. [redacted] said the black belt looked like one that they bought for Lennon Lacy's funeral. SA [redacted] had either of the belts. [redacted] said no. b6 b7C

SA [redacted] asked [redacted] if there was anything found in Lennon Lacy's bedroom that he needed to be made aware of because Attorney [redacted] had previously mentioned to SA [redacted] that the family said his room was never searched. [redacted] said no. SA [redacted] asked to see any shoes that belonged to Lennon Lacy. [redacted] brought out several pair of shoes. b6 b7C

The following shoes were documented by SA [redacted]

1. Blue/Green Nike size 12½
2. White/Gray/Blue Nike size 11½
3. Orange/Blue/Gray New Balance size 11½
4. White Nike size 11 (Shoe appeared very similar to the 10½ white Nike shoe found on Lennon Lacy at the crime scene.)
5. Yellow/Black Nike size 12
6. Brown/Black boot size 12

SA [redacted] informed Attorney [redacted] that he had received what he believed to be credible information that Lennon Lacy could wear a size 10½ shoe. [redacted] spoke up and [redacted] never said that Lennon Lacy could not wear a size 10½ shoe. [redacted] began talking about a foot or ankle injury that Lennon Lacy had and scar tissue that he had as a result from it. b6 b7C

After completing the meeting, SA [redacted] and SA [redacted] went to depart the area when Attorney [redacted] called SA [redacted] back over to him. SA [redacted] and SA [redacted] walked back over to Attorney [redacted] Attorney [redacted] again informed SA [redacted] that he had no knowledge of the NAACP being present for the meeting. b6 b7C
